ITEM SPECIFICATIONS

ARMADILLO 500R (with Armadillo Pods 500C)

Specific designed voided biaxial raft on ground obtained by using the Armadillo Pod 500C as internal formwork and consisting of an 85 mm thick reinforced concrete slab supported by a grid of reinforced concrete trapezoidal ribs at 750 mm x 750 mm centres. The foundation, equipped with bespoke cavities and with the Armadillo Jacking Pads 250, is re-levelleable around the perimeter.

ARMADILLO 500R (with Armadillo Pods 500P)

Specific designed voided biaxial raft on ground obtained by using the Armadillo Pod 500P as internal formwork and consisting of an 85 mm thick reinforced concrete slab supported by a grid of reinforced concrete trapezoidal ribs at 750 mm x 750 mm centres. The foundation, equipped with bespoke cavities and with the Armadillo Jacking Pads 250, is re-levelleable around the perimeter.
